

BLUE RIBBON CORP.

PLUG-ON DISPLAY WITH ONE RELAY

Model LD1001

FEATURES:

- 3 1/2 digits with one relay

INPUT:

- 4-20 mA

SUPPLY:

- 4-20 mA Transmitter

INTERFACE:

- DIN 43650 interface (Blue Ribbon connector option 'CJ')

APPLICATION:

The LD1001 plug-on display is a universal local display with an adjustable set point, suitable for use with any Blue Ribbon 4-20mA, 2 wire transmitter. Removing the front cover of the display will reveal 2 programming buttons. These are used to input the desired settings for the following parameters: Zero, scale, decimal point position, damping & switching point.

LD1001 is factory set up when ordered with a transmitter for easy field installation.
