PANEL MOUNT ALL STAINLESS GAUGES MODEL BR304L

Our '300' series gauge line is a high quality line of all stainless steel gauges. Hermetically sealing the gauge prevents dust, dirt or other contaminants from entering the case of the gauge and attacking the movement or internals of the gauge. Keeping out such contaminants prolongs the life of the gauge.

This gauge is typically used in chemical processing or food processing applications as well as any commercial or industrial application where stainless steel components are necessary.

SPECIFICATIONS:

- Front Flange Panel Mount Design
- Available Dial Sizes: 2½" and 4"
- Available Connection Sizes:
1/4"(M) NPT and (1/2" available)
- Stainless Steel Case
- SS Internals and Connection
- 316SS Bourdon Tube
- Dry but fillable
- Accuracy: 1½", 2", 2½" Dial=1.6%
4" Dial=1%
- Ambient Temperature: Filled: 30°F to 160°F
Dry: -30°F to 180°F
