

LIFE-TIME WARRANTY
REPLACEMENT PROGRAM

The BC001 Birdcage Submersible Level Transmitter
now features a

LIFE-TIME WARRANTY REPLACEMENT PROGRAM

for damage due to lightning or voltage surges
when the
BCP3000 Surge Protector
is properly installed and grounded in the panel system.

To qualify for a replacement transmitter,
the non-working transmitter must be returned to
Blue Ribbon with the BCP3000 Surge Protector
to be evaluated for the cause of failure.

For your convenience, the BCP3000 is a two-part system.
The BCP3005 is the Pluggable Suppressor which can be
Hot-Swapped.

This program is effective July 13, 2009 on new orders only

Consult your local distributor or the factory for price and availability.
